Describe the basis for the variance request (Applicants should become familiar with the pertinent sections of the Village Code. Attach additional pages as needed):

Describe the special conditions of the property (e.g., odd shape, small size, sloping topography, abuts state highway, etc.) and how the property compares to other properties in the Village:

The property abuts Connecticut Ave and East Lenox St.
The property's topography is flat. The property is
similar to other properties that abuts Connecticut Ave

Describe how enforcement of the building regulations would result in an unwarranted hardship and injustice because of the special condition(s) described above (i.e., describe (i) the unwarranted hardship and injustice that you claim exists and (ii) how the special conditions cause that unwarranted hardship and injustice):

Because this is a corner property the Connecticut ave is
considered as a front yard even though it is a side yard so
the variance is required for safe pool enclosure & county compliance
& pool location

Describe how the proposed variance most nearly accomplishes the intent and purpose of the requirements of Chapter 8 of the Chevy Chase Village Code, entitled *Buildings and Building Regulations*:

Will not change character of property ^{ten} enhances safety for
pool/spa. This fence will match the character of other fences already

Guidelines for Building, Replacing and Maintaining Fences and Walls

Sec. 8-21 of the Village Code regulates fences and walls. To repair or maintain an existing fence or wall, the Village does not require a building permit. To install or replace a fence or wall, however, residents will need a Village building permit. (A building permit may also be required from Montgomery County, including the Historic Preservation Commission, if the property is within the Historic District). Village Code allows fences and walls to be installed on a resident's property lines, inside the property lines on private property, and sometimes in the public right-of-way.

When placed on the property lines or on private property, the Village Code regulates fence and wall heights in two ways:

1. Fences and walls installed on private property anywhere between the property line and the front building restriction line may not exceed four (4) feet in height.
2. Fences and walls installed to the rear of the front building restriction line (that is, along the side and rear property lines or in the side and rear yards) may not exceed six and one-half (6 ½) feet in height.

When measuring the height of a fence or wall, the Village Code provides that the "measurement shall be made from the surface of the ground of the lower yard next to the fence or wall" **to the highest point of the fence or wall** (such as the top of the posts, caps, decorative lattice, finials, etc.). For example, if a fence post is 6 ½ feet high, then a cap on that post would exceed the height limit.

Walls can sometimes change the flow of water on a property. In such cases, residents or contractors will need to include a drainage plan with the building application.

When installing a fence or wall in the Village's public right-of-way, in addition to obtaining a Village Building Permit, residents must sign a **License to Use the Public Right-of-Way**, which may be recorded with your deed (please contact the Village office for more information). Fences and walls installed in the Village's rights-of-way may not exceed four (4) feet in height.

Fences and walls must be installed at least three (3) feet from the public sidewalk, or where there is no sidewalk, at least six (6) feet from the curb or nearest edge of the street or alley.

Special height limits apply to fences near an intersection on corner lots. The Village office will not issue permits for any fences or walls that block necessary sight lines at intersections or otherwise create a dangerous condition.

For complete Village Code requirements, please see Chapters 8 & 25.

Application for a Variance

A variance is permission granted by the Board of Managers pursuant to, and subject to, the conditions of Sec. 8-9(c) of Chapter 8 to construct, install, remove or alter a structure or planting, or take any other action that does not otherwise meet the requirements of the Chapter. Except as provided in Sec. 8-11 a variance can be granted only by the Board of Managers.

Subject Property: <u>1 East Lenox St</u>	
Describe the Proposed Project: <u>The project is to put up a fence at least 5' to enclose backyard so that an 8' by 12' pool/spa can be put in. Pool will align with plaque of house</u>

Filing Requirements:

Applications will be reviewed for satisfaction of all requirements and are not considered complete until approved as such by staff.

- Completed Chevy Chase Village Application for a Variance (this form)
- Completed Chevy Chase Village Building Permit Application
- Completed Chevy Chase Village Website Posting Notice
- A boundary survey or plat diagram with a margin of error of one tenth of a foot or less showing all existing structures, projections and impervious surfaces.
- Surveys, plats, engineering reports, construction plans/specifications or other accurate drawings showing boundaries, dimensions, and area of the property, as well as the location and dimensions of all structures/fences/walls/etc., existing and proposed to be erected, and the distances of such structures/fences/walls/etc., from the nearest property lines. These drawings shall incorporate and display reference dimensions from the boundary survey or plat diagram required above.
- Copy of Covenants applicable to the property except for variances from Secs. 8-21 or 8-26 of Chapter 8 (Building Regulations) or Chapter 25 (Public Rights-of-Way) of the Chevy Chase Village Code.
- Variance fee (See fee schedule listed in Chapter 6 of the Village Code).

Affidavit

I hereby certify that I have the authority to submit the foregoing application, that all owners of the property have signed below, that I have read and understand all requirements and that I or an authorized representative will appear at the scheduled public hearing in this matter. I hereby authorize the Village Manager, or the Manager's designee, and/or the Board of Managers to enter onto the subject property for the purposes of assessing the site in relation to this variance request. I hereby declare and affirm, under penalty of perjury, that all matters and facts set forth in the foregoing application are true and correct to the best of my knowledge, information and belief.

Describe the basis for the variance request (Applicants should become familiar with the pertinent sections of the Village Code. Attach additional pages as needed):

Describe the special conditions of the property (e.g., odd shape, small size, sloping topography, abuts state highway, etc.) and how the property compares to other properties in the Village:

The property abuts Connecticut Ave and East Lenoir St.
 The property's topography is flat. The property is similar to other properties that abuts Connecticut Ave

Describe how enforcement of the building regulations would result in an unwarranted hardship and injustice because of the special condition(s) described above (i.e., describe (i) the unwarranted hardship and injustice that you claim exists and (ii) how the special conditions cause that unwarranted hardship and injustice):

Because this is a corner property the Connecticut Ave is considered as a front yard even though it is a side yard so the variance is required for safe pool enclosure + adequate compliance of pool location

Describe how the proposed variance most nearly accomplishes the intent and purpose of the requirements of Chapter 8 of the Chevy Chase Village Code, entitled *Buildings and Building Regulations*:

Will not change character of property, ^{rather} enhances safety for pool/spa. This fence will match the character of other fences already in Coan. Ave street.
 In exercising its powers in connection with a variance request, the Chevy Chase Village Board of Managers may reverse or affirm, wholly or partly, or may modify the requirement, decision or determination as it deems appropriate. The pool will not be visible from the street.

Guidelines for Building, Replacing and Maintaining Fences and Walls

Sec. 8-21 of the Village Code regulates fences and walls. To repair or maintain an existing fence or wall, the Village does not require a building permit. To install or replace a fence or wall, however, residents will need a Village building permit. (A building permit may also be required from Montgomery County, including the Historic Preservation Commission, if the property is within the Historic District). Village Code allows fences and walls to be installed on a resident's property lines, inside the property lines on private property, and sometimes in the public right-of-way.

When placed on the property lines or on private property, the Village Code regulates fence and wall heights in two ways:

1. Fences and walls installed on private property anywhere between the property line and the front building restriction line may not exceed four (4) feet in height.
2. Fences and walls installed to the rear of the front building restriction line (that is, along the side and rear property lines or in the side and rear yards) may not exceed six and one-half (6 ½) feet in height.

When measuring the height of a fence or wall, the Village Code provides that the "measurement shall be made from the surface of the ground of the lower yard next to the fence or wall" **to the highest point of the fence or wall** (such as the top of the posts, caps, decorative lattice, finials, etc.). For example, if a fence post is 6 ½ feet high, then a cap on that post would exceed the height limit.

Walls can sometimes change the flow of water on a property. In such cases, residents or contractors will need to include a drainage plan with the building application.

When installing a fence or wall in the Village's public right-of-way, in addition to obtaining a Village Building Permit, residents must sign a **License to Use the Public Right-of-Way**, which may be recorded with your deed (please contact the Village office for more information). Fences and walls installed in the Village's rights-of-way may not exceed four (4) feet in height.

Fences and walls must be installed at least three (3) feet from the public sidewalk, or where there is no sidewalk, at least six (6) feet from the curb or nearest edge of the street or alley.

Special height limits apply to fences near an intersection on corner lots. The Village office will not be issue permits for any fences or walls that block necessary sight lines at intersections or otherwise create a dangerous condition.

For complete Village Code requirements, please see Chapters 8 & 25.

**Building Permit Application for Fences and/or Walls:
Filing Requirements**

Application will not be reviewed until the application is complete

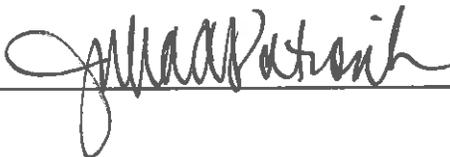

- Copy of stamped drawings approved by Montgomery County Department of Permitting Services (DPS) and the Historic Preservation Commission (HPC), if required. Every page of drawings must be clearly stamped.

Describe the basis for the Special Permit request (Applicants should become familiar with the pertinent sections of the Village Code. Attach additional pages as needed):

Describe the reasons why approval of the Special Permit would not adversely affect the public health, safety or welfare or the reasonable use of adjoining properties:

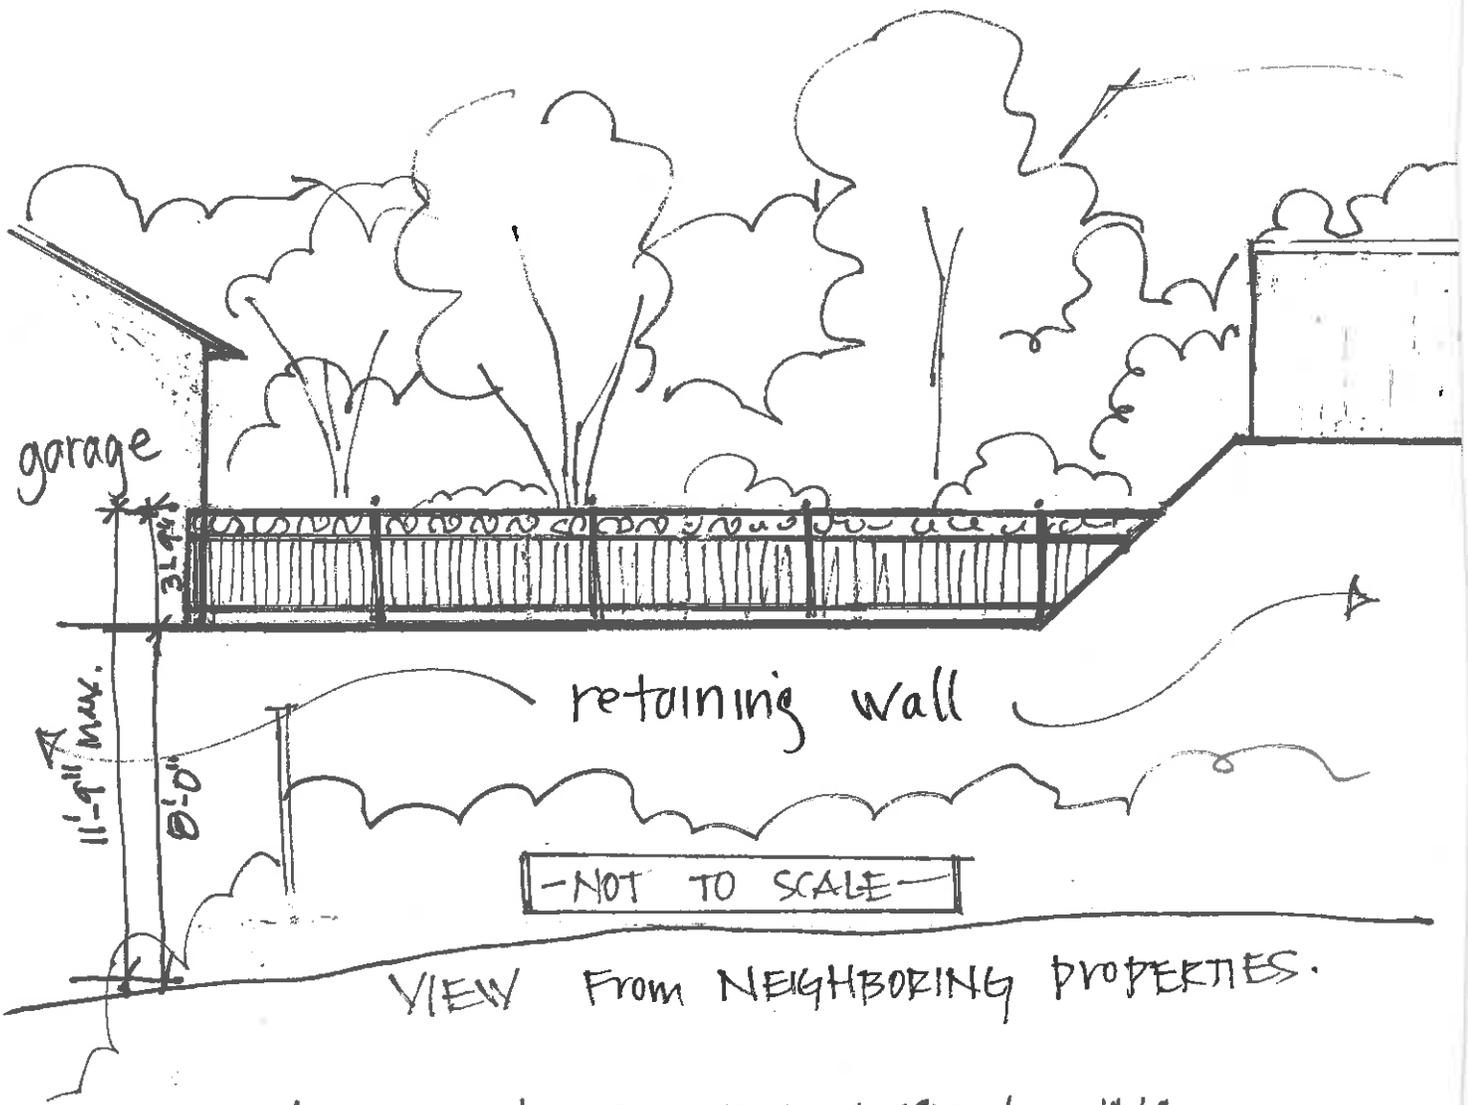

The portion of the fence in question would act as a railing atop an existing concrete retaining wall. The wall is 4'-8" tall on the back side and a railing will prevent someone from falling into the adjacent properties.

Describe the reasons why the Special Permit can be granted without substantial impairment of the intent and purpose of Chapter 8, entitled *Buildings and Building Regulations*, or Chapter 25, entitled *Public Rights-of-Way* of the Chevy Chase Village Code

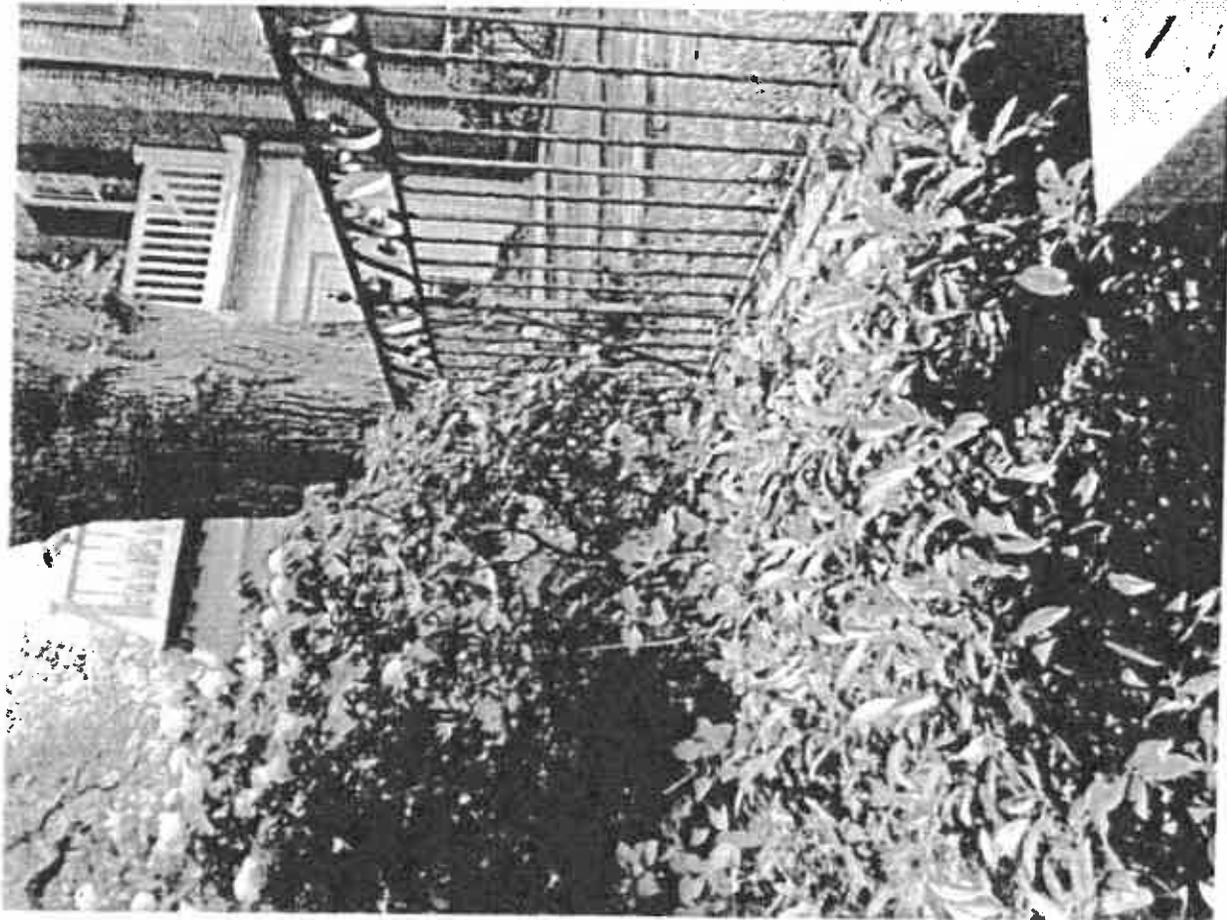

This railing/fence style has been used on the original house and some interior retaining walls and is in keeping with the historical architecture.

Julie,

Thank you for the sketch and the explanation of your plans for adding the railing for the Regan rear yard. Barbara and I concur that it would be best to have the installation on the wall rather than just inside it and have no problem granting permission for its installation on that portion of the wall that is on our property. We also have no objection to the combined height of the concrete wall and the new railing being in excess of the allowable height for fences in Chevy Chase Village. Our PERMISSION IS GRANTED.

Ms. Keating:

The residents at 6 Quincy Street are making an appeal to the Board of Managers to have a fence in excess of 6 ½ feet in the rear yard of their property. They propose to attach a 42" tall wrought iron fence to the existing masonry retaining wall at the west end of their property.

The way our Code is written a fence may not exceed 6 ½ feet in height in a rear yard without approval from the Board of Managers. It also states states that if the abutting owners provide a note of consent the request is a Special Permit (rather than a variance). While the proposed fence is not actually abutting your property, a portion of your property does abut 6 Quincy Street, so I think I need to have your consent in order for the request to be considered as a Special Permit (rather than a variance).

Here is the full Code provision:

(d) Fence and wall height in rear yard. No person shall construct any fence or wall at any location between the front building restriction line and the rear property line nor along any rear property line having a height greater than six and one-half (6 ½) feet. The measurement shall be made from the surface of the ground of the lower yard next to the fence or wall. With the written consent of the owner(s) of any adjoining property, a fence or wall of greater height than six and one-half (6 ½) feet at its highest point, may be erected or permitted if a Special Permit is obtained from the Board of Managers.

I understand Ms. Patronik reached out to you about this, however the response we received was not a definitive statement of consent. Can you please confirm for me if you provide consent for this additional fence height? Please call me if you have any questions.

Chevy Chase Village

Permitting and Code Enforcement Activity May 2016

Telephone Queries: +/- 125

Walk-Ins: +/- 62

Pre-Design Review Meetings: 6

Municipality Letters (issued to the County for new projects): 11

Administrative Building Permits Issued: 13 Administrative Building Permit; 3 Dumpster

Licenses to Use the Public Right-of-Way: 1

Appeals: Two Decisions from variance requests granted at the May meeting were drafted, circulated, and approved; two variance requests were prepared for the June Board meeting.

Tree Ordinance Board: Two pending.

Enforcement Incidents: Routine code enforcement patrol and site inspections of construction projects were conducted. Additionally:

- One Stop Work Order was issued. The contractor had removed required tree protection fencing and run mechanical grading equipment through the tree protection zone. Staff is working with the Village arborist, contractor and resident to assess the damage, prescribe corrections and develop a revised Tree Protection Plan, at which point the Stop Work Order can be lifted.
- A resident installed a section of new fencing without obtaining the applicable Historic Preservation Commission (HPC) approval or Village Building Permit. Staff contacted the resident and advised them to contact HPC and then provide either an Historic Area Work Permit (HAWP) or confirmation that none was required, along with the applicable CCV Building Permit Application for Fences and Walls;
- Staff observed that alterations were made to an approved Building Permit for patio modifications, including the addition of a gas fireplace which had not been depicted on the plans and which was located within the rear yard setback. Staff contacted the resident, who has applied for a variance to maintain the structure;
- A contractor working at a property made alterations to an existing patio and started to install a drainage system without having obtained the applicable CCV permit. The contractor, who is also the owner of the property, has obtained the required Building Permit;
- Staff observed that a resident had installed a fence without having obtained the applicable CCV permit. The resident had obtained a County Fence Permit, but not the Historic Preservation Commission (HPC) approval. Staff has contacted the resident and advised them to obtain the required Historic Area Work Permit (HAWP) and submit that along with the other required materials to obtain the CCV Building Permit;
- A resident indicated to Staff that a wall at his property required repair however in observing the structure it became evident that the wall was unstable and would need to be removed and rebuilt. Staff advised the resident to contact HPC and the County to obtain the applicable County permits and then to submit the CCV Building Permit application;

Tree Requests: 14 requests were made to the Village arborist for tree inspections pursuant to removals or Tree Protection Plan requests for construction projects.

Administrative Tree Removal Permits: 10 permits were issued for removal of a total of thirteen (13) trees.

Expired Permit Memos Sent: None required this month.

Additional Activity:

- Staff continues coordination of engineering assessments of drainage concerns related to the appeal of the Managers Decision to issue a building permit at 5502 Grove Street.

-compiled by Ellen Sands, Permitting and Code Enforcement Coordinator

<u>State Projects</u>				
Connecticut Avenue Pedestrian Signal	Construction	1 month	Ongoing	June 2016

Connecticut Avenue Pedestrian Signal:

- Village and State Highway Administration staff are still working with PEPCO to expedite bringing power to the site, so activation of the signal can be made as soon as possible. Power installation should be complete by June 10.
- Once power installation is complete, SHA contractors will be ready to activate the signal within a few days.
- If all goes well the signal should be activated by Monday, June 20.

PEPCO Tree Pruning and Removals:

- No updates since last month's report.

Village Website Redevelopment:

- Design work on the new website is complete.
- Staff is currently working through the new and old websites to update content and ensure that all functionality on the new website is working properly before its' official launch, which is scheduled for the end of June.

Washington Gas Main Replacement:

- No updates since last month's report.

W. Kirke St. and Laurel Pkwy. Intersection Improvements:

- Despite the rain all work was completed on-time.
- Overall the project was completed \$9,500 under budget.

Western Grove Park Development:

- Over the next 2 weeks, construction activities will be ramping up at the park as the contractor has received approvals to begin installing the tree preservation and site security fencing, sediment and erosion controls and will begin removing select trees.
- The Western Grove Park Friends Group is continuing its fundraising campaign and has received contributions/pledges of approximately \$37,000 to address a shortfall in the construction budget, the Friends Group initial goal is to raise an addition \$125,000.

WSSC:

Laurel Park Sewer Rehabilitation:

- No updates since last month's report.

Water/Sewer Main Replacement (5500 block of Western Avenue):

- WSSC and the Village held a joint public information meeting on May 26 with affected residents.
- Unfortunately, only 5 residents attended.
- WSSC is currently in the process of making contact with all residents to request access to private property to begin its survey activities.
- The first phase of work will be to survey the affected properties. Once that is completed, WSSC and their contracted engineering firm will conduct an alignment study to determine if the mains can be relocated out of the rear-yards.
