Larceny From Vehicle

Overnight Monday into Tuesday, someone broke a window out of 3 different cars in Chevy Chase Village, all with out-of-state license plates. The cars were properly registered. The only item stolen was an empty laptop case worth approximately \$30. Although it is unusual that our thefts involve smashing car windows, in each of the crimes, we believe (based on the officer's observations) the thief thought that valuable electronics were inside the cars. After smashing each window, the thief did not unlock the car doors; the thief simply reached through the open window. The officer found all of the car doors locked when he arrived.

Officer James Timmerman responded to all of the events, and he spoke with one resident who heard something outside at about 3:30 a.m. The resident thought that the noise was caused by raccoons, so the resident turned on some outside lights and then heard a vehicle drive away. The resident did not call the police. The details follow:

1. Theft: 5600 block of Kirkside Drive (between Montgomery Street and Center Street)
 - Rear driver's side window broken by unknown means (window was on the street side of the car)
 - Empty laptop computer case was stolen from the back seat (visible from outside of the car)
2. Attempt theft: 5500 block of Montgomery Street (between the dead end and Kirkside Drive)
 - Front passenger side window broken (window was on the curb side of the car)
 - Nothing taken, but a cell phone style charger was plugged in and its LED light was illuminated and visible from the outside
3. Attempt theft: 5500 block of Cedar Parkway (first block off of Western Avenue)
 - Driver's window broken (window was on street side of car)
 - Nothing taken, but a GPS holder was on the floor of the car and visible from the outside if the thief used a flashlight
