

Parks and Green Spaces Committee Meeting

March 9, 2022 at 4 P.M.

Chevy Chase Village Hall

AGENDA

Welcome back! It's good to get together and make plans for 2022. Margo Kingston and Susan Kilborn

Meeting Date

The Committee agreed to change the meeting day from the second Thursday to the second Wednesday of the month.

Ailing Cherry trees along Connecticut Ave.

Dr Feather

These trees are in decline, and as you know they are non-native and not long lived, so we need to discuss how to proceed with what remains of the row along Connecticut Ave, as there are several options

The Buffer

Ellen Sands

Due to the pandemic and staffing issues, the Buffer project has been postponed until 2023. But the allocated budget amount has not been reduced. However, Ellen Sands will be meeting with the engineer in the meantime. Discussion of how we can help.

Are any plantings being considered? Most of the ferns seem to have survived the winter, but should more be planted against the west fence to further stabilize the soil?

Bench Stone Foot Rests

The Village will install pads under those benches as needed. We are providing a list of those benches and will be happy to be present in each park and other spaces at the time of installation, if possible.

Report on Parks and Green Spaces

The Committee

Many Committee members volunteered to keep an eye on various parks and Green Spaces. Please comment on the status of "your" Park.

2022 Meeting Dates

April 13

May 11

June 8

We hope to often meet in Western Grove Park, weather permitting.
