

## **Stormwater Committee Agenda**

**Thursday, May 18, 2023**

**9:00 a.m. – 10:00 a.m.**

1. Update by Village Staff (3 minutes)
2. Each member reports on survey efforts and any additional information (1 minute per member max)
3. Overview of RainScapes presentation (Marea Hatzios with 5 minutes)
4. Discussion of next steps as our mandate includes community education and regulatory review (15 minutes)
  - a. Community Education—Educating residents in the available options to mitigate stormwater runoff impacts effectively and without creating burdens on neighboring properties is critical. The committee should work to educate residents on available options to mitigate existing concerns and ways to incorporate stormwater management best practices into private development planning such as increased impervious areas and building additions, including information regarding available county and state stormwater resources.
  - b. Regulatory review—The committee shall assess and make recommendations to the Board on regulatory changes that should be made to control stormwater runoff, including, but not limited to, establishing impervious area thresholds or minimum vegetative area percentages.
5. Approval of previous minutes (1 minute)
6. Other business (1 minute)
