

Environment & Energy Committee Meeting

Friday, June 4, 2021 to be held at 3915 Oliver Street 11:00 a.m.- noon

- Introducing new members to the Committee

- Feedback from discussions with Village Management on Recycling and how to encourage better recycling behavior and outcomes
 - Stricter implementation of Recycling Guidelines in the Village

- Clarifying enforcement protocols for Leaf Blower Noise regulations and the ban on gas leaf blowers as of January 1, 2022
 - Next steps in outreach campaign to landscape operators
 - Update on what other municipalities are doing—progress at the County level, including equipment buyback schemes

- Promoting Renewable Energy, Electric Vehicles and other Climate-friendly action in the Village (including exploring options for Village operations to move toward net zero emissions for electricity and other energy needs)

- Our next youth-oriented activity
 - Installing a Pollinator and Butterfly Garden in the Western Grove Park or other Village green space
 - Collecting athletic (and other serviceable) equipment for recycling and reuse similar to our recent bicycle drive

- Other Business
