

Parks and Green Spaces Committee Meeting

October 12, 2022

Held in the Buffer Park at 4 PM

Attending the meeting were;

Ellen Sands, Chevy Chase Village Administrator, and Committee members, Carol Coffin, Sue Cohen, Susan Dixon, Jorie Jurgens, Leslie McKay, Mildred Nance, and Margo Kingston and Susan Kilborn, Co-Chairs.

This meeting was devoted to an on-site “walk through” of the Buffer study area with the engineer for Charles P. Johnson & Associates, Brad Bartell as well as Beth Forbes the Landscape designer, who are performing the work. Landscape Concept Sketches were provided for each of the attendees. The Committee members referred to the Sketches as we walked through the Buffer, asking questions and pointing out problem areas. The Committee can continue to use these Sketches for reference as the work progresses.

Before adjourning the meeting, Margo Kingston thanked committee members for their generous assistance with the Honey Bee talk and reception last month.

Motto

***Respect science, Respect nature,
Respect each other***

Respectively Submitted

Susan Kilborn
