

Treasurer's Report July-March (9 months of FY 2020)

Overall:

This report is a nine-month snapshot of FY 2020. We received our first significant income tax distribution in November, in the amount of \$2,432,794. This projects to approximately \$3,600,000 for the fiscal year, \$1,400,000 over budget. Instead of the budgeted draw on reserves of \$487,402, the Village is going to finish the year with a significant surplus. However, expenses will be increasing due to the emergency compensation for essential personnel during the emergency order related to the COVID-19 pandemic, so while as of now we still project a surplus, it will be less than anticipated a month ago.

Income Tax Revenue:

The Village received our second quarterly distribution of \$665,749 in February. This does not change the year end final income tax revenue projection. This still projects to be 64% above our budgeted amount. The main reason for this is that our jurisdiction had a number of taxpayers who maintained their increased revenue from the previous year. The pandemic will not affect the current fiscal year's income tax revenue, however, initial impacts are expected in FY2021.

Property Tax Revenue:

In March we received a payment for real estate tax in the amount of \$38,083. The Village adopted the constant yield rate for fiscal year 2020 so we should come in right around budget for the year.

***SafeSpeed* Net Revenue:**

The *SafeSpeed* revenue for February was \$64,842. That puts us 10% below budget for the fiscal year. However, with the stay at home orders issued in the region and across the country decreasing the number of vehicles on local roadways, this monthly revenue will decrease significantly in the coming months.

Miscellaneous Revenue:

As of now, all other revenue sources are tracking approximately at budget, except for hall rentals which will decrease significantly while the Village Hall is closed. Hall rental revenue, however, represents a tiny portion of Village revenues.

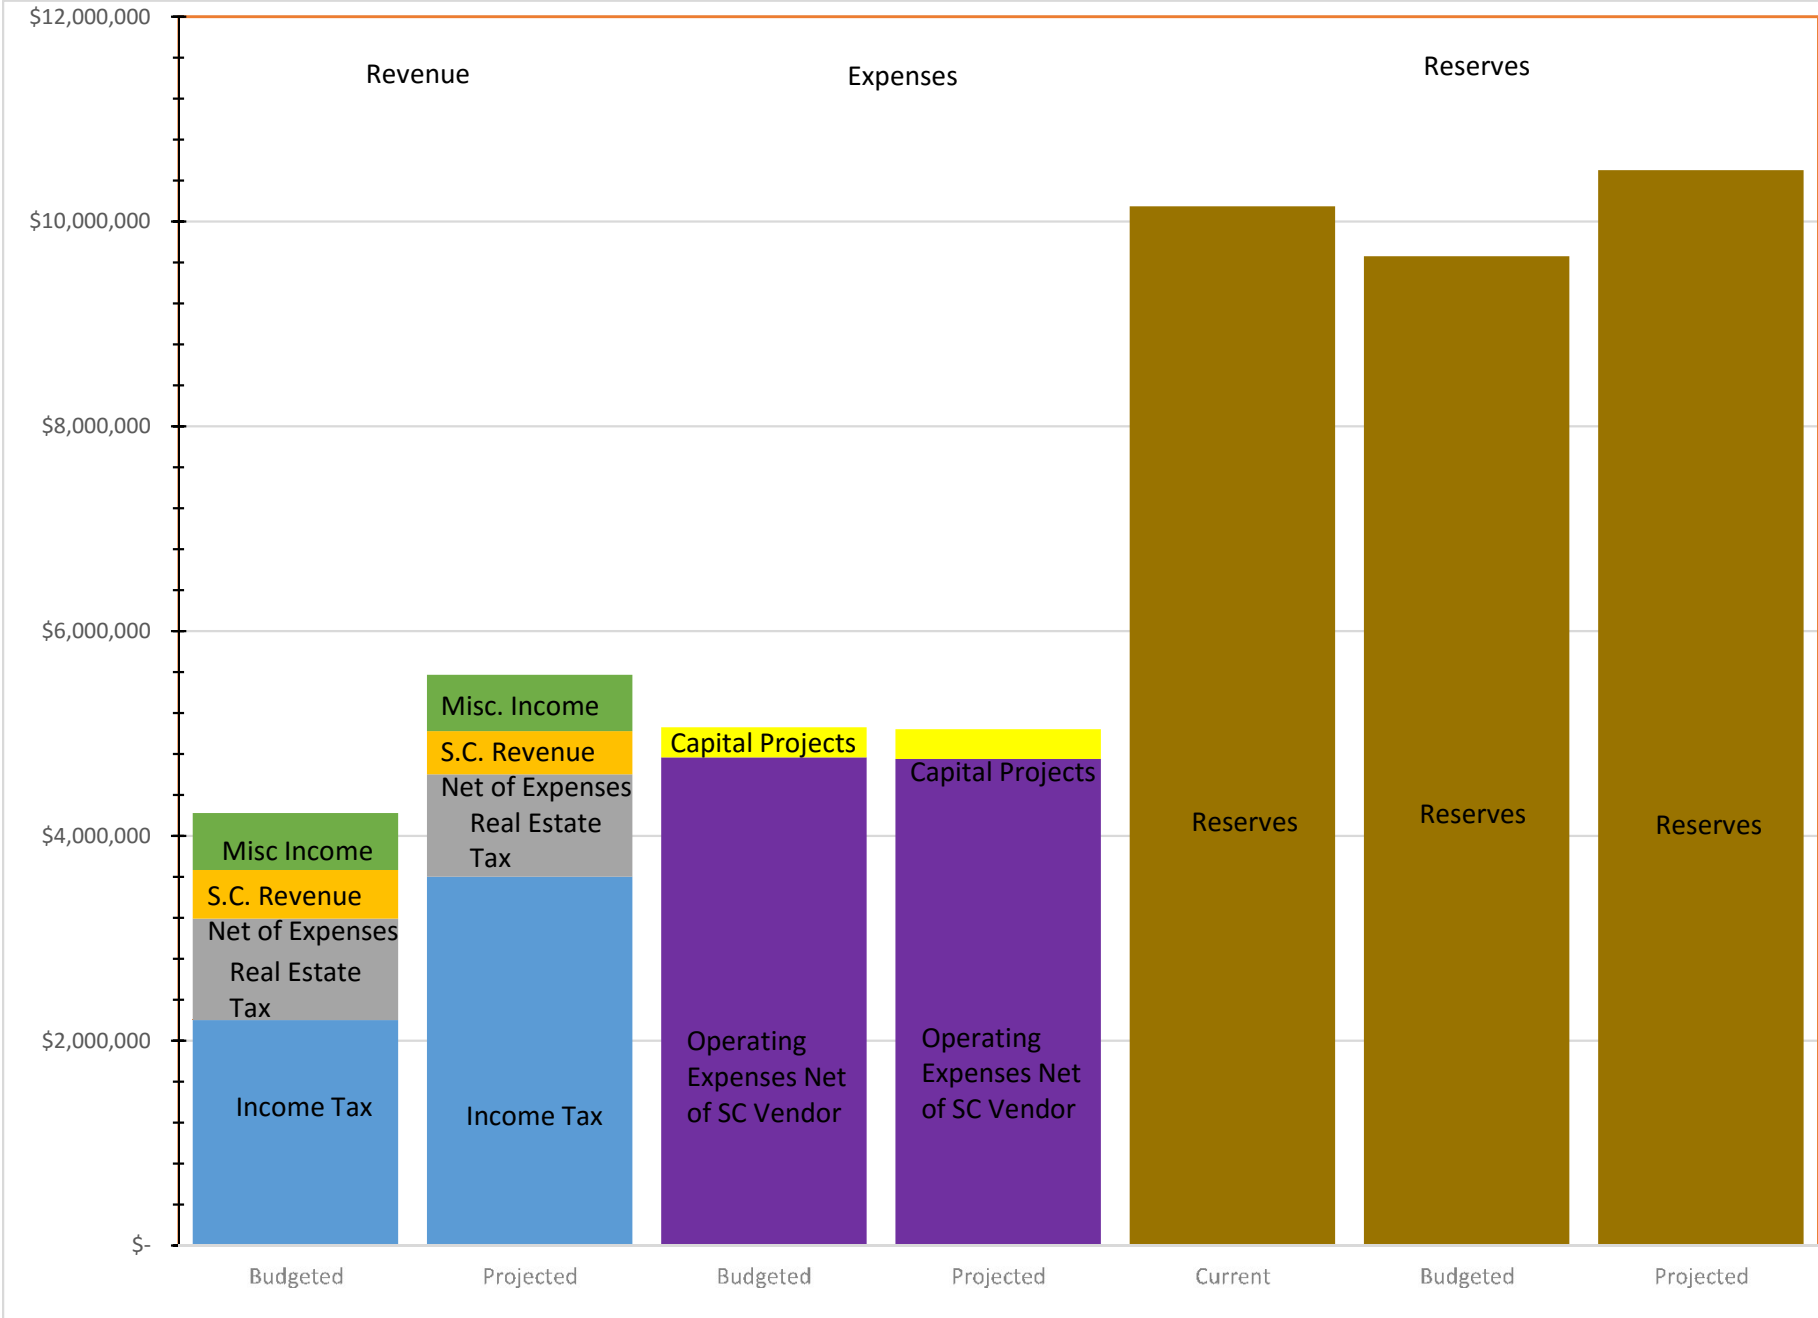

Capital Expenses:

Our expenses are budgeted to be \$291,500 with the two major expenses being the storm water management project and the purchase and outfitting of two new police cruisers. The Director of Municipal Operations has identified some roadway repairs that need to be performed that are expected to exhaust the remaining budget for street maintenance (\$50,000).

Operating Expenses:

We are currently projected to be about 1-2% below budget.
