I.   GENERAL

The CODY Records Management System *is a large computerized database* that stores information from all calls for service, field reports and citations issued by Chevy Chase Village police officers. The system has an extensive statistical reporting capability.

II.   CONTENTS

The records management system contains the following information since coming online in November 2003:

A.   Incident and Collision Reports

    1.   Dates and Times

    2.   Incident Description

    3.   Location

    4.   Suspect/Vehicle Information

    5.   Complainant Name and Address

    6.   Victim Name and Address

    7.   Incident Report Number

    8.   Arrest Information

    9.   Vehicle Information

    10.   Supplement Report Information

    11.   Officer Involved

    12.   Other Information (i.e. Property stolen, Dispatcher comments, Narrative – for some incidents, etc.)

B.   Citations

    1.   Date and Time

    2.   Location

    3.   Citation Disposition (Citation, Warning, ERO)

    4.   Citation Type (Parking, Speeding, Civil, Criminal)

    5.   Driver Information

    6.   Vehicle Information

    7.   Incident Report Information

    8.   Citation Number
