

## **Tree Committee Activities (2019)**

Newlands Park Arbor day: labeled the large trees by botanical and common name.

Spring street tree planting: together with Tolbert Feather we chose a couple of dozen sites for new and replacement street trees. We corresponded with persons who either didn't want a tree or wanted a different species. (Sprint tree planting for 2020 has been postponed. But we have visited sites and corresponded with objectors.) Village staff planted trees and watered them per arborist's protocol.

Throughout the year, the Committee dealt with a few issues, mainly regarding maintenance of street trees and exemptions regarding the removal of street trees for new construction. Village staff worked appropriately.
